And We Have Fun

Kipling SCHOOL

At Kipling school, we want to bring classroom lessons to life.
Participating in school trips allows students the opportunity to implement all their educational theories into real life experiences, enjoying a unique learning and cultural experience outside a classroom.
In addition to all the fun they have, students learn to be independent, learn about different cultures, collaborate in groups and interact in a practical manner.
On a social level, students are more likely to flourish and become more creative, assertive and confident.

TRIPS

- Interact with others and build friendships.

EVENTS AND ACTIVITIES

We Are Nearby

Kipling SCHOOL

We are located in the heart of Smart Village where students enjoy a wide range of facilities, including access to the Smart Village sports club, where PE classes and other activities take place.

Our buildings are ultra- modern and have been designed to provide students across all stages with spacious learning environments, play and communal areas, that incorporate the two fundamental aspects of ventilation and natural light.

We truly recognise the benefits of “green spaces” both physically and mentally, and we are committed to continuously working towards protecting and conserving nature.
